### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel P. Lent (Reg. No. 44,867) on October 6, 2005.

The application has been amended as follows:

As to claim 16, in line 1, please delete the phrase – "A storage medium encoded with a set of data created by:" – and insert in its place the phrase – "A computer readable medium having computer-executable instructions for performing the following:".

As to claim 17, in line 1, please delete the word – "storage" – and replace it with the phrase – "computer readable".

As to claim 18, in line 1, please delete the word – "storage" – and replace it with the phrase – "computer readable".

As to claim 19, in line 1, please delete the word – "storage" – and replace it with the phrase – "computer readable".

As to claim 21, in line 1, please delete the word – “storage” – and replace it with the phrase – “computer readable”.

As to claim 22, in line 1, please delete the word – “storage” – and replace it with the phrase – “computer readable”.

As to claim 23, in line 1, please delete the phrase – “A storage medium encoded with a set of data created by:” – and insert in its place the phrase – “A computer readable medium having computer-executable instructions for performing the following:”.

As to claim 24, in line 1, please delete the word – “storage” – and replace it with the phrase – “computer readable”.

As to claim 25, in line 1, please delete the word – “storage” – and replace it with the phrase – “computer readable”.

As to claim 26, in line 1, please delete the word – “storage” – and replace it with the phrase – “computer readable”.

As to claim 59, in line 1, please delete the word – “storage” – and replace it with the phrase – “computer readable”.

As to claim 60, in line 1, please delete the word – “storage” – and replace it with the phrase – “computer readable”.

As to claim 61, in line 1, please delete the word – “storage” – and replace it with the phrase – “computer readable”.

As to claim 27, in line 1, please delete the phrase – “A storage medium encoded with a set of data created by:” – and insert in its place the phrase – “A computer readable medium having computer-executable instructions for performing the following:”.

As to claim 28, in line 1, please delete the word – “storage” – and replace it with the phrase – “computer readable”.

As to claim 29, in line 1, please delete the word – “storage” – and replace it with the phrase – “computer readable”.

## **DETAILED ACTION**

### ***Response to Amendment***

2. In response to applicant's amendment received on September 19, 2005, all requested changes to the specification and claims have been entered. Claims 5, 12, 20, 30, 48-50, 78 and 79 have been cancelled.

### ***Allowable Subject Matter***

3. Claims 1-4, 6-11, 13-19, 21-29, 31-47, 51-67, 74-77 and 81-84 are allowed.

The following is an examiner's statement of reasons for allowance:

As to claims 1, 8, 16 and 27, none of the prior art teach or fairly suggest wherein correlating comprises transforming the hologram of the reference and input objects and multiplying the transformation of the hologram of the reference object by the transformation of the hologram of the input object, in combination with the other limitations of the claims. The prior art of Lom (already of record) discloses a pattern recognition process including generating a hologram of a reference and input object and correlating the holograms to generate a set of correlation peaks, but does not teach or fairly suggest the correlation as set forth in the limitations of the claims above.

As to claim 15 and 23, none of the prior art teach or fairly suggest where defining a window within the hologram of the input object consists of the using the equation defined in the claims, in combination of the other limitations in the claims. The prior art of Lom (already of record) discloses a pattern recognition process including generating a hologram of a reference and input object and defining a window within the hologram of the input object, but does not teach or fairly suggest defining the window in accordance with the equation set forth in the limitations of claims 15 and 23.

As to claim 46, none of the prior art teach or fairly suggest autocorrelating the first hologram and comparing the autocorrelating the first hologram with the correlation of the first hologram with the second hologram, in combination with the other limitations of the claim. The prior art of Lom (already of record) discloses a pattern recognition process including generating a hologram of a reference and input object and correlating the holograms to generate a set of correlation peaks, but does not teach or fairly suggest the autocorrelating the first hologram with the correlation of the first hologram with the second hologram as set forth in the limitations of claim 46.

As to claims 81-84, none of the prior art teach or fairly suggest wherein correlating comprises of displaying/forming the holograms of the input object and the reference object on electrically or optically addressable spatial light modulators, addressing the electrically or optically addressable spatial light modulators with a reference beam and processing the holograms optically to generate a set of correlations peaks, in combination with the other

limitations of the claims. The prior art of Lom (already of record) discloses a pattern recognition process including generating a hologram of a reference and input object and correlating the holograms to generate a set of correlation peaks, but does not teach or fairly suggest the correlation process as set forth in the limitations of claims 81 and 83.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
